

Supervisor Manual (Stupid Simple)

Your job

- Run fulfillment exceptions safely.
- Approve controlled partial/exception releases.
- Keep clear notes and auditability.

The screenshot displays the POS AWESOME Supervisor interface. The top navigation bar includes a menu icon, the POS AWESOME logo, and links for Cloud Online, PJ7 CASHIER, and MENU. The main content is divided into two panels. The left panel, titled 'Supervisor Fulfillment', shows a 'Paper-first picking with line-wise edits for exceptions' tip, a summary of Ready (4), Picking (0), and Exceptions (2) items, and a list of orders with their status (e.g., PICK_EXCEPTION, PENDING, SLA: High) and age. The right panel, titled 'Fulfillment Detail', provides a comprehensive view of a specific order (LSR: PJ7 - 20260302062740-E9EBF5), including its total value, creation and update timestamps, and a 'Phase Timeline (Dispatch Monitor)' showing the current phase (Pick Exception) and its age. Below the timeline, there are buttons for 'MARK ALL PICKED', 'START/SAVE PICKING', 'MARK PICKED READY', 'FLAG EXCEPTION', 'RELEASE GOODS', and 'FLAG MISMATCH'. A table of 'Line Items' is also present, showing items like 'BX-20 WINDY FAN' and '20" AIR CIRCULATOR BOX' with their respective quantities and stock levels. On the far right, a 'Dispatch Release Proof' section requires acknowledgment and proof mode selection.

Supervisor screen

When you do what

1. Start of shift:
 - Check `Exception` and SLA-high rows first.
2. During shift:
 - Review picker/dispatch details.
 - Decide: return to picker, mismatch route, or controlled release.
3. End of shift:
 - No unresolved exception without documented next action.

Every button/field on supervisor screen

Supervisor sees both picker and dispatch controls.

1. Refresh icon:
 - Reload queue/detail.
2. `DETAILED` / `SIMPLE`:
 - `DETAILED` for full context.
3. Search + filter chips (`All`, `Pending`, `In Progress`, `Exception`, `Picked Ready`, `Dispatch Ready`):

- Find workload and exception states.
4. Picker action buttons:
- `MARK ALL PICKED`
 - `START/SAVE PICKING`
 - `MARK PICKED READY`
 - `FLAG EXCEPTION`
5. Dispatch action buttons:
- `RELEASE GOODS`
 - `FLAG MISMATCH`
 - `Allow partial/exception release` checkbox
6. Dispatch Release Proof fields:
- `Acknowledged By (required)`
 - `Proof Mode (required)`
 - `Reference No (optional)`
 - `Proof Notes (optional)`
7. Dispatch Mismatch fields:
- `Reason Code`
 - `Reason Details`
 - `Requires cashier adjustment`
8. Notes fields:
- `Picker notes`
 - `Dispatch notes`
9. Left ticket icon + monitor controls:
- Cross-role pending-order visibility.

Simple decision rules

1. Full good pick:
 - Normal `RELEASE GOODS` with proof.
2. Pick exception but acceptable release:
 - Enable `Allow partial/exception release`, then release with full notes.
3. Financial mismatch:
 - Flag mismatch and require cashier adjustment.
4. Missing proof:
 - No release.

Non-negotiable rules

- No override without reason and notes.

- No release without proof capture.
