

Supervisor Manual (Stupid Simple)

Role sanity (must be true)

- Your only operational role is `cline-Supervisor`.
- If you see "multiple operational roles", stop and correct role assignment first.

Your job

- Resolve exceptions.
- Approve controlled partial releases.
- Keep audit notes complete.

The screenshot displays the POS AWESOME Supervisor interface. The top navigation bar includes a menu icon, the logo 'POS AWESOME', and user information 'Cloud Online PJ7 CASHIER MENU'. The main content is divided into three sections:

- Supervisor Fulfillment:** Features tabs for 'DETAILED' and 'SIMPLE'. A tip box states: 'Paper-first picking with line-wise edits for exceptions. Picked qty defaults to ordered qty and keeps order UOM/conversion factor.' It shows counts for Ready (2), Picking (0), and Exceptions (0). Below are metrics for Avg Wait (Ready) at 2d 8h, Oldest Open at 3d 21h, and Over SLA at 2. A search bar for LSR / SO / customer is present, along with filters: All, Pending, In Progress, Exception, Picked Ready, and Dispatch Ready. Two order entries are listed: 'RETAIL PJ7 WALK IN' (LSR: PJ7-20260227081502-792FD7) with status 'PICKED_READY_FOR_RELEASE', 'PENDING', 'SLA: High', 'State', and amount \$1,350.0000; and another 'RETAIL PJ7 WALK IN' (LSR: PJ7-20260302052403-3AC61D) with status 'PICKED_READY_FOR_RELEASE', 'PENDING', 'SLA: High', 'Fresh', and amount \$10,500.0000.
- Fulfillment Detail:** Shows LSR: PJ7-20260227081502-792FD7, SO/Token: SAL-ORD-PJ7-2026-00012, Cloud St: -, Customer: RETAIL PJ7 WALK IN, and Cashier: cline@pj7jamaica.com. It includes a total of \$1,350.0000 and creation/update/release timestamps. A warning message states: 'Source Sales Order age exceeds profile max lookup age. Age: 3 day(s)'. The 'Phase Timeline (Dispatch Monitor)' shows 'Current Phase: Picked Ready For Release', 'Current Phase Age: 3d 21h', 'Open Age: 3d 21h', and 'SLA: High'. It also displays 'Paid / Local Commit: 27-02-2026', 'Pick Started: 27-02-2026 (Duration: 3m)', and 'Picked Ready: 27-02-2026 (Duration: 0m)'. Action buttons include 'MARK ALL PICKED', 'START/SAVE PICKING', 'MARK PICKED_READY', 'FLAG EXCEPTION', 'RELEASE GOODS', and 'FLAG MISMATCH'. A checkbox for 'Allow partial/exception release' is present.
- Line Items:** A table with columns: Item, Ord Qty, UOM, Conv, Ord Stock, Picked Qty, Picked Stock, and Status. It shows one item: 'WB0C 8" GROOVE JOINT PLIERS' with Ord Qty 1.00000, UOM Nos, Conv 1.00000, Ord Stock 1.00000, Picked Qty 1, Picked Stock 1.00000, and Status PIC. Below the table is a 'Dispatch Release Proof' section with fields for 'Acknowledged By (required)', 'Proof Mode (required)' (set to 'Counter pickup'), 'Reference No (optional)', and 'Proof Notes (optional)'.

Supervisor screen

When to do what

1. Start of shift:
 - Check exception rows first.
 - Check SLA-high rows second.
2. During shift:
 - Review line-level pick and dispatch proof/mismatch details.
 - Decide one path: return to picker, mismatch route, or controlled release.
3. End of shift:
 - No unresolved exception without clear next action note.

Every visible button/field on supervisor screen

1. Refresh icon: reload queue/detail.
2. `DETAILED` / `SIMPLE`: view mode.

3. Search + filter chips (`All`, `Pending`, `In Progress`, `Exception`, `Picked Ready`, `Dispatch Ready`).

4. Picker controls:

- `MARK ALL PICKED`
- `START/SAVE PICKING`
- `MARK PICKED READY`
- `FLAG EXCEPTION`

5. Dispatch controls:

- `RELEASE GOODS`
- `FLAG MISMATCH`
- `Allow partial/exception release`

6. Dispatch proof fields:

- `Acknowledged By`
- `Proof Mode`
- `Reference No`
- `Proof Notes`

7. Mismatch fields:

- `Reason Code`
- `Reason Details`
- `Requires cashier adjustment`

8. Notes:

- `Picker notes`
- `Dispatch notes`

9. Event panels:

- `Pick History`
- `Dispatch + Sync`

Edge cases you must follow

1. If queue has no `Pending/In Progress`, work from `Exception` or `Picked Ready` rows and normalize safely.
2. Partial/exception release still requires proof fields.
3. If mismatch action does not persist, escalate and log LSR + timestamp.

Non-negotiable rules

- No release without proof.
- No override without note and reason.
