

POS Process Overview (All Roles)

One-line flow

Sales Associate creates token -> Cashier collects payment -> Picker picks -> Dispatch releases -> Supervisor handles exceptions/overrides.

Role sanity map (one operational role per person)

1. Sales Associate: `cline-Sales Associate`
2. Cashier: `cline-Cashier`
3. Picker: `cline-Picker`
4. Dispatch: `cline-Dispatch`
5. Supervisor: `cline-Supervisor`

Who does what

1. Sales Associate:
 - Builds cart and creates token/order.
 - Never enters cash shift money.
2. Cashier:
 - Opens cash session and takes payment.
 - Owns payment completion and shift cash accountability.
3. Picker:
 - Updates line-level picked qty.
 - Marks picked-ready or pick-exception.
4. Dispatch:
 - Captures release proof.
 - Releases goods or flags mismatch.
5. Supervisor:
 - Resolves exception/mismatch path.
 - Can approve controlled partial/exception release.

Handoff checkpoints

1. SA -> Cashier:
 - Token exists and customer handoff complete.
2. Cashier -> Picker:
 - Invoice/payment submitted.
 - Fulfillment row visible.
3. Picker -> Dispatch:
 - Picked-ready or exception documented.

4. Dispatch -> Customer:

- Release proof captured and status released.

5. Any role -> Supervisor:

- Blocked action, mismatch, stale row, or policy exception.

Fixed edge-case rules (important)

1. SA must never see or enter opening cash amount fields.
2. Dispatch/Supervisor release needs proof fields filled before release.
3. If mismatch action does not persist, escalate immediately with LSR.
4. If user sees "multiple operational roles", stop and correct role assignment first.
5. Legacy relay behavior may differ on old endpoints; operational flow uses current UI endpoints and supervisor escalation if blocked.

Quick visual references

The screenshot displays the POS AWESOME cashier payment reference interface. The interface is divided into several sections:

- Payment Methods:** Fields for Cash (\$7.0000), Credit Card (\$0.0000), Cheque (\$0.0000), and Bank Transfer (\$0.0000) with corresponding buttons (CASH, CREDIT CARD, CHEQUE, BANK TRANSFER).
- Totals:** Fields for Net Total (\$6.0870), Tax and Charges (\$0.9131), Total Amount (\$7.0000), Discount Amount (\$0.0000), Grand Total (\$7.0000), and Rounded Total (\$7.0000).
- Customer Information:** A dropdown menu for Customer (RETAIL PJ7 WALK IN) and a dropdown for Type (Invoice).
- Item List:** A table with columns: Name, QTY, UOM, Rate, Amount, and Is Offer. The first item is #4 METAL SCREW EYE [144PCS] (PB) with QTY 1.00000, UOM Nos, Rate \$7.0000, Amount \$7.0000, and Is Offer checkbox.
- Buttons:** SUBMIT, SUBMIT & PRINT, CANCEL PAYMENT, HELD, SELECT S.O, SAVE QUOTE, SELECT QUOTE, RETURN, CANCEL, SAVE/NEW, PAY, and PRINT DRAFT.
- Additional Fields:** Total Qty (1.00000), Additional Discount % (0.00000 %), Item Discounts (\$0.0000), and Total (\$7.0000).
